

bid)!!! UNDER NEW MANAGEMENT (but hoping for a hostile takeover bid)!!!

to get  
only; also  
This first effort at a newsletter will be short but I want to get out some dates of club activities in the near future quickly; also some of the things that many of our members missed in the immediate past.

Did you know that at a recent auto auction in Phoenix Arizona a TR3A in #1 condition sold for \$20,000. That should be good motivation for those of you with cars in pieces, so get going and get those cars on the road.

Once more club dues rear their ugly heads.... a lot of first year members have not yet renewed their membership and it has been decided that those members who do not renew by August 1st will not receive further newsletters. The cost of mailing quickly depletes our funds.

The tech session at Dewey's was a most interesting afternoon. We, under Dewey's guidance, tore down a TR6 engine. At each stage he pointed out the areas to check for wear and damage. Those club members who attended found the experience very rewarding and thank Dewey for his expert instruction. There will be two more tech sessions in the near future; one on cleaning/polishing and preparing the parts for reassembly and a final one on rebuilding the TR6 engine when the parts come back from the machine shop. Dewey's shop has 3 cleaning stations so everyone gets hands on experience.

The next general meeting will be a spa night with cheese and wine. Bring along a bathing suit, a hunk of your favorite cheese and a bottle of wine. It will be held at 7 00 on July 11th at Spas, ect. on Blanding Blvd. It is situated 3/4 mile south of Orange Park Mall on the left. Our thanks to Joan Schneider for hosting this event.

The annual sojourn to Hazelhurst was a lot of fun and as usual we were rained on going and coming. An interesting tech tip. When rushing to put the top up in a rain storm, don't lean your leg against the tail pipe. It's painful but does cauterize the wound!

Finally, don't forget the National Meet at Boulder Colorado August 1st through 5th. If you need a brochure call me.

Bob
